VINEYARD HIGH TENSILE WIRE

The easy tie, long life wire that delivers vintage performance for the wine industry. New Zealand made for NZ conditions and Vanadium enhanced to deliver higher tensile strength and increased malleability.

95% Zinc / 5% Aluminium alloy coating of 130 grams per square metre or more giving twice the life of traditional 100% Zinc coating.

Wiremark guaranteed to comply with NZ 3471:1974 regarding tensile strength, elongation and coat weight consistency.

PLUS - All coils are also covered by Cyclone's 112 year reputation for uncompromising performance and our NO HASSLE quality guarantee.

Product Specifications:

WIRE DIA. (mm)	LENGTH (m)	Max Break Load (kg force)	REC Tension (load kg force)
2.50	1000	620	160
